SEABREEZE THE BEAUTIFUL

Land Values Have Appreciated Due to the Numerous Permanent Improvements Recently Made.

The same spirit with which the founders of City Beautiful, now Seabreeze, were imbued has lately been again manifested by the citizens of that thriving resort, a spirit of improving and general beautifying of their surroundings.

Crossing the Peninsula Bridge for the first time the visitor is certain to be pleasantly impressed with the view. Neat cottages of coquina or wood, well kept and surrounded by pretty lawns, line the broad avenue which ends apparently at that big hotel, The Charendon.

The large urns lining each side of this avenue, when filled with blooming flowers, add an agreeable effect which cannot be described. For months lately they have been filled with dead stalks or rank weeds. Would it not be a good idea for the ladies to form a Village Improvement Association to raise funds sufficient to plant flowers in these handsome urns and keep them in good condition? The small expense incurred would be more than paid for by the added attractiveness.

The casual visitor notes the removal of a fence or building which had become unsightly with age, or he sees that certain streets have been widened and sidewalks which have been built and heavily marled.

But the greatest improvement is the number of neat cottages which have recently been erected or are in course of construction now. Scarcely a day passes that The News reporter does not pass through some of the streets in search of news, and he rarely takes a trip without finding either a new building or additions being made. These cottages are not at all pretentious, but are well built, neat homes, indicative of an intention on the owner's part of making of them permanent places of abode.

Many other lots are being cleared from street to street and the high

sand dunes leveled or the hollows filled in, either for the purpose of building or with the intention of placing the property on the market. Of course here and there are a few rather disreputable looking old cottages, but they are few and far between, and they are in that condition more from the lack of finances than from impecuniosity.

Real estate has taken an upward turn due the many recent transfers effected and to the fact that numerous inquirers for land there have been made.

Ohioans in Florida.

Mrs. William M. Greene's visit to Florida is not altogether a pleasure trip, for her young son, Orland, is not well and the doctor orders balneotherapy, that is, if they can be found on this continent. Mrs. Greene, Miss Helen, Master Orland and Mrs. Greene's niece, Miss Deshler, of Columbus, will leave tomorrow, going down in President Greene's private car. They will have the pleasure of the company of Mrs. Ed. Harrison and Miss Anne Harrison as far as Daytona, but they go on to Miami, the port for Cuba, where Mr. Greene will join them, coming over from Havana. If Miami is not tropical enough they may run over to Nassau. Mrs. Frank Perin and Mrs. John F. Winslow also leave tomorrow for Nassau, where they will join Mr. Frank Perin and a party of friends who have been cruising about the Caribbean Sea for several weeks in Mr. Perin's yacht. Cincinnati Enquirer.

Mr. and Mrs. J. R. Libby left today en route for Portland, Me. This pleasant couple made many friends while here who regret to lose them from social circles.

F. M. Fairchild and wife, Brooklyn; A. Romer, W. H. Ferguson; A. L. Carter, S. S. Watts, Baltimore; E. A. Beckley and wife, New Haven; Griff B. Conklin, and wife, H. O. Hyatt and wife, Brooklyn; W. T. Butler, Pittsfield, Mass.; R. S. Hughes and wife, Dayton, O., are guests of The Ridgewood.

An Old Favorite

LAMENT OF THE IRISH EMIGRANT

By Lady Dufferin

LADY DUFFERIN, poet, who was born in 1807 and died in 1887 was the author of many popular songs and ballads, of which the one given below is the best known. She was the granddaughter of the dramatist and orator, Richard Brinsley Sheridan, and mother of the late diplomat, the Marquis of Dufferin and Ava.

I sat on the stile, Mary,
Where we sat side by side,
On a bright May morn' long ago,
When first you were my bride,
The corn was sprouting fresh and green.

And the lark sang loud and high,
And the red was on your lip, Mary,
And the dew-drops in your eye.

The place is little changed, Mary,
The day is bright as then,
The lark's loud song is in my ear,
And the corn is green again,
But I miss the soft clasp of your hand,
And your breath, warm on my cheek,
And I still keep looking for the words
You nevermore will speak.

'Tis but a step down yonder lane,
And the little church stands near,
The church where we were wed, Mary,
I see the spire from here,
But the graveyard lies between, Mary,
And my step might break your rest,
For I've laid you, darling, down to sleep,
With your baby on your breast.

I'm very lonely now, Mary,
For the poor make no new friends;
But, O, they love the better still,
The few our Father sends!
And you were all I had, Mary,
My beauty and my pride,
There's nothing left to care for now,
Since my poor Mary died.

Yours was the good, brave heart,
Mary,
That still kept hoping on,
When the trust in God had left my soul,
And my arm's young strength was gone!

There was comfort ever on your lip,
And the kind look on your brow,
I bless you, Mary, for that same,
Though you cannot hear me now.

I thank you for the patient smile,
When your heart was fit to break,
When the hunger pain was gnawing there,
And you hid it for my sake!

And you hid it for the pleasant word,
When your heart was sad and sore,
O, I'm thankful you are gone, Mary,
Where grief can't reach you more!

I'm bidding you a long farewell,
My Mary—kind and true!
But I'll not forget you, darling,
In the land I'm going to;
They say there's bread and work for all,
And the sun shines always there,
But I'll not forget old Ireland,
Where it bitts me as fair!

And often in those quiet old woods
I sit, and shut my eyes,
And my heart will travel back again
To the place where Mary lies;
And I'll think I see the little stile
Where we sat side by side,
And the sprouting corn and the bright
May morn'.

When first you were my bride,
Mary,
That still kept hoping on,
When the trust in God had left my soul,
And my arm's young strength was gone!

SHORT STORIES.

Our customs authorities have decided to classify edible frogs as "poultry" and make them pay duty as such when imported from abroad.

"Are your glasses insured?" If not, they may be for the small sum of \$1 a year. A New York concern has just established this latest phase of the insurance business.

It is estimated that Denver will be called upon to entertain between 20,000 and 30,000 people on the occasion of the seventh international convention of the Epworth League, which is to be held July 5 to 9.

H. Hollenback of Boulder Creek, Cal., was kicked over a 200 foot precipice by his mule, but fifty feet down fell into a large wood rat's nest in a redwood tree, 150 feet from the ground. There he stayed until a party of rescuers got him down with ropes.

Colorado burros are being purchased in large numbers by the United States government for use in the Philippine Islands. Two carloads of these "Rocky mountain canaries" were recently shipped from Trinidad, Colo., to San Francisco for transportation to the islands.

ENGLISH ETCHINGS.

Preparations are being made for the publication in London of a weekly journal written for conjurers.

A Roman Catholic church is to be erected at Aldershot, England, in memory of the Catholic soldiers who fell in the British service in the Boer war.

Roast swan was a holiday dish in England last year with those who could afford it. A fifteen pound bird cost about \$10. The flavor of the flesh is said to be a blend of goose and hare.

The British admiralty has refused to grant an eighteen cent per day special campaign pension to Adam Cushing, a Crimean veteran, seventy-two years old, on the ground that marines are not eligible, so he has resorted to the alms house.

Mountain and seaside ozone brought into the city in pipes is a scheme on foot to brace up the worn-out Londoner. Rumor has it that experiments are to be tried at a large "kurhaus" soon to be erected, probably in Piccadilly. If the idea meets with success, a magazine states that subsidiary pipes may be laid in private houses.

WISDOM'S WHISPERS.

A Wanderer Returned.

G. W. Dibble, wife and child, of New York, are guests of The Ridgewood. Mr. Dibble is a wealthy real estate dealer in New York, and owns a large slice of Nantucket Island, where he has a summer cottage.

Thirty-four years ago Mr. Dibble went to New Smyrna on a fishing and hunting excursion and made a trip to Daytona. Since then he has never visited either place until the present time. Mr. Dibble has his notes written at the time of this trip, years ago, and has promised the News a story which should prove very interesting.

Soldiers' Home for Florida.

Senator Talliferro has introduced a bill in Congress to appropriate the sum of \$300,000 for the purpose of acquiring a site and building a home in Florida for disabled soldiers, sailors and marines. It is a move, although a tardy one, in the right direction. If any State of the South especially deserves or needs a Soldiers' Home for its disabled veterans of the Civil and Spanish wars it is Florida. There is a very large number of war veterans living there, not only enrolled in that department—quite a large one—of the G. A. R., but thousands more who have never united with that organization. Many of those made their homes in Florida as they were mustered out of service forty years ago, and the developments and prosperity of that State have brought many other soldiers to the "land of flowers." The G. A. R. post organizations have existed and the provisional department also for thirty-six years, but the regular department organization was instituted at the home of your correspondent in Pensacola while he resided there in 1881. In no section of the South have old animosities engendered by a Civil war been more effectually and eternally buried, and the spirit of good fellowship and cordiality between the survivors of both blue and gray more strongly cemented than in Florida. But certainly on account of the very large number of soldiers of the 'sixties' and 'nineties' that the State is entitled, and without delay, to a Soldiers' Home.

OPERA HOUSE ATTRACTIONS

The Varied Attractions Which Are Billed For The Daytona Opera House for a Week.

The attractions at the Daytona Opera House for the next week include educated animals, musicals, farce comedy and picture scenes. The first event is the trained animal show which will be given Friday night, February 24. Speaking of this show John C. Granbery, Jr., pastor of the M. E. Church, South, of Rocky Mount, Va., says:

"It gives me pleasure to commend your entertainment, at which I was present recently. I had seen trained horses, ponies, monkeys, dogs and even a trained pig, but trained canaries, parrots, chickens and geese were new to me. To witness these exhibitions is not only amusing and interesting to children, but also curious, instructive and provocative of reflection to older persons of serious mind. I wish you success."

On Monday, February 27, Farmer Hopkins, a farce comedy, will be on the boards. This company will bring the famous Imperial orchestra with them, and the show is said to be a clean, laughable one. The Cincinnati Enquirer, commenting on the play says: "A clean, well written rural play, beautifully staged and well acted, created a fine impression last night."

Tuesday, February 28, Congress of Nations and Ben Hur is billed to appear.

A first class cake walk by negro artists with latest features and music will be given Wednesday, March 1.

The Colored Industrial School, of Eatonville, Fla., will send a glee club here on Friday, March 3d, which will be worth hearing by lovers of plantation melodies. The club is sent out to raise funds to aid in the support of this school, which aims to educate and teach trades to its students.

Mrs. Rockwell and Mrs. Barber returned from St. Augustine yesterday and are again at The Cleveland.

Persuasive Soil.

Here's a good one from the Palm Beach Daily News: "If any evidence were needed as to the productivity of Florida soil that evidence was contributed yesterday by Mr. Francis O. Winslow, of Norwood, Mass., who is stopping at the Royal Poinciana. Mr. Winslow, while looking over the tennis courts, discovered a bunch of St. Augustine grass that had forced its way through the one and one-half inches of asphalt and sand pavement which was recently laid on the courts, boiling hot, and afterwards rolled with heavy iron rollers. The grass had grown to a height of nine inches through this solid paving, which was laid but a fortnight ago. Talk about a persuasive soil and atmosphere, that is 'going some.'"

DAYTONA is situated upon the

east bank of the Halifax River at its

largest expanse and midway between

the source at Bayview Bay and its outlet

at Mosquito Inlet. It is in latitude

29° 45' north and one mile from the At

lantic Ocean, and is acknowledged to

be without a rival for beauty among

the cities of the South. Its site is

what is known as high land

which is the most rapid growth of

the city, and is surrounded by

the finest of the world, and the surf

bathing is safe and excellent summer

and winter. People who have tried

Northern and Western summer resorts

declare that there are none so perfect

in comfort as Daytona beach.

Daytona Beach

lies one mile east of the town. It is

approached by three good bridges

over the river and well-graded ave

nuces, and is the principal summer re

sort south of St. Augustine. It has

more tourists during the summer than

any other place south of that city com

bined, and is also becoming a favorite

winter resort. The beach is wide,

firm and smooth, by many considered

the finest in the world, and the surf

bathing is safe and excellent summer

and winter. People who have tried

Northern and Western summer resorts

declare that there are none so perfect

in comfort as Daytona beach.

Automobile Race Meet.

The Florida East Coast Automobile

Association conducts an annual race

meet on the beach, which has now a

universal reputation as the greatest

automobile race course in the world.

The Daytona-Ormond Beach is hard

as macadam, and an ideal stretch

of thirty or more miles without a

break makes it the natural racing

ground for America.

At low tide the beach is bare for

300 feet and neither carriage wheel

bicycle or pedestrian can make a

hardly visible imprint on the smooth

and well-packed sand. It is no un

common sight to see sail-rigged boy

cies speeding with the velocity of the

wind before a stiff breeze along the

smooth beach, thus affording the most

exhilarating sport known to man. Be

sides these, miles of hard-shelled, palm

fringed boulevards bring the lovers of

the wheel and vehicles into direct

touch with the mainland over the

broad bridges which span the splendid

Halifax River.

The beach from the sandy bluffs to

the lowest point at ebb tide, measures

about 500 feet, and the average depth

of the surf measures about two feet.

A continuous gentle swell rolls in

from the ocean from one to two feet in

depth under normal conditions, mak

ing the beach an attractive and abso

lutely safe place for surf-bathing.

Here the infant as well as the gray

haired veteran of many summers, can

safely enjoy the luxury of a sea bath

throughout the larger part of the year,

while the strong and expert swimmer,

can venture out further to test his

strength and skill in battling with the

inexhaustible powers of the mighty

ocean.

The Peninsula

lying between river and ocean is one

half mile wide, and is being rapidly

improved, and there are many fine

cottages and several good hotels, ar

per house, two ocean piers, beach

recreation and a large casino.

A Remarkable Feature

at Daytona has been the yearly im

provement in the style and value of

the buildings that are being erected

for homes. Men of capital of the

North and West have become awak

ened to its advantages for winter re

sidences, and valuable lots are being

purchased and costly houses, beauti

ful in design and finish, are being er

ected, and beautiful homes, the abode

of wealth and culture are multiplying.

Seabreeze (City Beautiful) and

Goodall are settlements on the ocean

side of the peninsula across the Hal

ifax River from Daytona.

At the foot of Ocean Boulevard,

Seabreeze, a pier reaches 600 feet

across the beach into the swelling

surf of the ocean. This pier is a

favorite resort of those who delight

in the sport of fishing. The surf

here abounds in trout, pompano, yel

lowtail, cavalle, whiting, drum,

sheepshead and many other varieties

of edible fish. During the fall season

the famous sea bass affords royal

sport, and it has been no uncommon

occurrence to land a thousand pounds

of this gamey fish in an afternoon.

Individuals of them ranging from

fifteen to thirty-five pounds in weight.

Not only does the ocean offer this

splendid sport but the Halifax River,

only half a mile back of the ocean, is

equally famous for its fine fishing,

and the varieties that abound in the

ocean are present in the river.

Hunting and fishing good. Ex

perienced guides and dogs may be had

at reasonable prices.

Water Supply

which is derived from numerous

flowing wells, of which there are prob

ably 500 in the corporate limits. This

flow is secured by boring wells to the

depth of from 80 to 120 feet, passing

through several strata of rock, and

this depth assures purity from all

surface contamination. The water is

slightly impregnated with magnesia

and iron, and holds sulphur in the

shape of gas, which soon passes away.

The Population of Daytona

proper is about 1,800. Added to

this is a suburban population on main

shore and peninsula of about 1,000 at

Kingston, Blake, Old Seabreeze or

Goodall, Seabreeze and Silver Beach,
